 **GeoUS**

Duration:
01/2020
12/2022

The project helps VSB-TUO to become a centre of excellence in geothermal energy storage and systems in the country.

EU funding of the GeoUS project will enable the university to enhance the scientific excellence of its personnel and collaborate with leading international research institutions in the field.

Young researchers will have the chance to study fundamental and practical aspects of developing geothermal energy sustainably.

SUPPORTED BY H2020,
WIDESPREAD-03-2018 - TWINNING

This project has received funding from the **European Union's Horizon 2020 research and innovation programme under grant agreement N°856670.**
